Sai Prasath D.P.

Data Analyst | Financial Analyst | Accounts Executive

Bengaluru, Karnataka | +91 93807 21853 | saiprasathdp@gmail.com | Portfolio: saiprasathportfolio.pages.dev

PROFESSIONAL SUMMARY

B.Com graduate with a 9.05 CGPA and practical skills in Excel, Power BI, Tally Prime, financial modeling, financial statement analysis, forecasting, data analysis, and MIS reporting. Built a 10-year three-statement financial model and scenario-based forecast for a listed company using public filings. Google Data Analytics and Microsoft Power BI coursework in progress; seeking entry-level Data Analyst, Financial Analyst, or Accounts Executive roles.

CORE SKILLS

- Microsoft Excel: PivotTables, VLOOKUP, XLOOKUP, INDEX-MATCH, Power Query, basic Macros and VBA
- Power BI: Data modeling, DAX, dashboard development, data visualization, and KPI reporting
- Financial Analysis and Accounting: Tally Prime, ledger entries, journal entries, financial reporting, financial statement analysis, ratio analysis, budgeting, forecasting, capital budgeting, variance analysis, and three-statement financial modeling
- Data Analysis: Data cleaning, data transformation, MIS reporting, and dashboard reporting

PRACTICAL EXPERIENCE

Excel Training Program

Structured Skill Development, Bengaluru | Feb 2026 - Apr 2026

- Completed intensive training in advanced Excel functions, including IF, SUMIF, COUNTIF, VLOOKUP, XLOOKUP, and INDEX-MATCH, through case-based exercises.
- Used Power Query to import, transform, and automate data across multi-sheet datasets.
- Built PivotTable and chart-based summaries that converted raw data into decision-ready reports.

PROJECTS

TCS Financial Analysis and Forecasting Model | Microsoft Excel | Independent Academic Project

- Built a 10-year, multi-sheet three-statement model covering TCS FY2016-FY2025, with Base, Bull, and Bear FY2026-FY2027 scenarios using independently researched revenue-growth and margin assumptions.

Project file: Download Excel model

TCS Financial Outlook Dashboard | Power BI Desktop | Independent Academic Project

- Built a four-page Power BI Desktop dashboard using Power Query, data modeling, and DAX for FY2018-FY2025 historical data and the FY2026 actual baseline.
- Reported Revenue, Calculated EBITDA proxy, Adjusted PAT, and Organic FCF. FY2027-FY2028 Base, Bull, and Bear outputs are analytical sensitivity cases, not TCS guidance, actuals, or consensus.
